PATENT

M.A.P Nitrogen Technology

An innovative technology protected by Patent No. 201921386707.5, based on replacing oxygen with nitrogen inside the bottle. This advanced system prevents oxidation of the coffee extract, allowing it to be stored for up to 365 days at room temperature—without the need for preservatives. A cutting-edge method that revitalizes coffee and preserves its freshness, replacing traditional preservation techniques with a more effective and safer solution.
